

## TWO FACTORS WORK TO DELAY REPLY

### Austro-Italian Situation May Absorb Germany's Attention This Week

## MAY PROTEST TO ALLIES

### Diplomats Believe U. S. Will Seek Modification of Order-in-Council

## DETAINED SEVERAL SHIPS

WASHINGTON, May 18.—Two important factors, it became known tonight, are working to delay for another week Germany's reply to the American note of May 13th, sent as a consequence of the Lusitania disaster. First, the next few days are expected to decide whether Germany will be confronted with a new military situation by the entrance of Italy into the war and the cutting off of all supplies through the Mediterranean.

Second, interested diplomats here believe the interim of delay will cause the United States, of its own initiative, to send a general protest to the allies with regard to their violation of international law by interfering with neutral commerce.

Officials here generally think the Austro-Italian situation may absorb the attention of the German government during this week and delay the final composition of the reply. Such information as the United States government has recently received is of an imperative nature, that Italy would soon enter the war.

The idea that the United States will send a note to the allies seeking modifications of their order-in-council has its origin in quarters where the conviction is held that such a move at this time would demonstrate to Germany the intention of the United States to be equally vigorous in an insistence on the observance of neutral rights by Great Britain and her allies making it unnecessary for international laws to be violated.

Will Await German Reply.  
Although what definite information there is, there is disposition to believe that Washington will withhold any contemplated representations to England until Germany's reply is received, because of a desire to obtain a frank understanding with the latter country on the points raised in the American note without complicating them with the situation as between the United States and the allies.

It is known that for several weeks there have been under preparation two notes eventually to be sent to Great Britain, one dealing with the general subject of contraband as a consequence of the correspondence begun on Dec. 31st.

Secretary Bryan said today that from 2 to 30 ships had been detained by the allies, most of them carrying cotton. He explained the state department was not yet in possession of all the facts and was investigating. British officials here advocated that most of the detentions and delays in their opinion were due to carelessness by American shippers in failing to give selling prices and other information in their invoices.

Believe Reply Will be Conciliatory.  
In diplomatic quarters friendly to Germany it is confidently believed that the German reply to the United States will be conciliatory and make broad concessions in principle if it is certain that strong efforts will be made to induce the allies to abandon their commercial embargo.

There is little fear now that any passenger ships will be torpedoed while the diplomatic discussions are in progress, for it was pointed out that since the suggestions of the Austrian and German embassies here, that the submarine program be suspended had reached Vienna and Berlin, there had been no such attack although many opportunities apparently had presented themselves.

The Lusitania case it is now anticipated will be dealt with separately from the general subject in the German reply. Comments of the Berlin press confirm views expressed here that Germany will disavow any intention of destroying American lives, contending that all would have been saved but for explosions in the ammunition cargo. In this connection attention was called to the statutes of the United States which make it unlawful "to take, carry or have on board any such steamship or other vessel, any nitro-glycerine, dynamite for any other explosive or compound, nor any vitrol, or like acids, nor gunpowder, except for the ship's use, nor any article or number of articles, whether as cargo or ballast, which by reason of the nature or quality or mode of storage thereof, shall either singly or collectively be likely to endanger the health or lives of the passengers or the safety of the vessel."

Is a Protective Measure.  
Government officials said today, however, that this statute had never been construed as applying to arms

## STATE SENATE ADOPTS COMPTON RESOLUTION

### PROVIDES FOR SUBMISSION OF PROPOSED CONSTITUTIONAL AMENDMENT

Would Remove Certain Restrictions in the Levying of Taxes—Organized Labor Wins One of the Most Bitter Labor and Anti-labor Fights That has Reached Floor of Present Legislature.

Springfield, Ill., May 18.—By a vote of 35 to 12 the state senate late tonight adopted the Compton joint resolution providing for the submission to the people of a proposed constitutional amendment which would remove certain restrictions in the levying of taxes.

The proposed amendment does not directly charge the present state taxing system but so changes the constitution that the desired changes can be made by the legislature. Many of those favoring the resolution have declared in favor of the classification of property.

Senators debated the resolution in all evening session before taking a vote.

### Organized Labor Wins Fight.

Organized labor was victorious today in one of the most bitter labor and anti-labor fights that has reached the floor of the present legislature. By a vote of 78 to 48, the house placed the McGloin car limit bill on the calendar after the public utilities committee had recommended that the measure be tabled.

The bill limits freight trains to fifty cars and is being backed by organized labor as a "safety first" measure. It will need 77 votes for passage.

Last week the public utilities committee of the house recommended that the McGloin bill be tabled. The vote was close. Later, labor representatives got eleven members of the committee to sign a minority report.

### Favor Larger Navy.

In the face of strenuous opposition from the Democrats, Republicans and members of the senate adopted a resolution declaring in favor of a larger United States navy and calling upon Illinois representatives in congress to adopt a strong naval policy. The vote on the resolution was 26 to 18.

Only one Democrat, Senator Compton of Macomb, spoke and voted in favor of the resolution. Eighteen Democrats voted against it and the remainder of the minority side refrained from voting. The Republicans voted solidly in favor of the measure. The resolution was offered by Senator Curtis of Kankakee. The house by a vote of 111 to 2, passed Representative Jackson's bill fixing a fine of from \$200 to \$1,000 for exhibition pictures or plays tending to incite race riots. Representative Pierson of Cook county opposed the measure. He considered it so contrary to the constitution of the state and the policies of its people that he could not see how anyone could consistently support it. The bill, he declared, would destroy freedom of individual speech and the liberty of the press.

A bill providing efficiency standards for horse shoers before they are granted licenses was passed.

### To Hold Joint Session.

The house adopted a resolution offered by Mr. Igoe of Cook, providing for a joint session of senate and house tomorrow afternoon to consider Governor Dunne's waterway project.

Asserting that the bill would provide such a high tax that it would force moving picture companies out of business in Illinois, representatives of companies manufacturing moving picture films today launched a fight against the Curran moving picture censorship bill which is considered in the lower house of the legislature. The Curran bill prohibits the showing of motion pictures which have not been passed upon by a state moving picture censorship board of three members, to be appointed by the secretary of state with the approval of the governor.

### To Break Up "Tip Trust".

The Merritt bill, designed to break up the so-called "tip trust", was passed today by the lower house of the legislature. The vote was 117 to 0. The measure prohibits the leasing of cloak rooms, shoe shining stands, wash rooms and other public places for the purpose of obtaining gratuities.

Tippling is not prohibited by the bill, which provides that employees may receive tips if the tips are retained by them and not paid over in whole or in part to anyone else. The bill provides a maximum fine of \$10,000.

and ammunition, such as the Lusitania carried, that it was a protective measure against explosions from within and had no relations with attacks from without in times of war which are governed by the general rules of international law.

In the general speculation heard in official and diplomatic circles as to the possible severance of diplomatic relations between the United States and Germany, Brazil and Argentina are most frequently mentioned as the nations likely to take over the diplomatic interests of the United States in Germany and Austria as well as those of countries whose affairs now are cared for by the American embassies and consulates.

## DARROW DECLARES ENGLISH HAVE MORE LIBERTY THAN AMERICANS

Tells Industrial Commission That American Liberty is a Theoretical Delusion.

Washington, May 18.—Clarence S. Darrow, who defended the McNamara brothers in the Los Angeles dynamiting case, discussed industrial and social conditions in America today before the industrial relations commission. He expressed the hope that J. B. McNamara serving a life prison sentence, would be pardoned and said the pardon ought to come soon.

"McNamara thought he was doing something for the common good when he blew up the Los Angeles Times," said the lawyer. "He risked his life because he believed in a cause and looking at it from his own standpoint he was a martyr."

Darrow told the commission that the day soon was coming when hospitals would be substituted for prisons, that punishment was barbarism, that bloodshed was essential to progress and always had been and that American liberty was a theoretical delusion. The people of England, he declared, had more liberty than those of America.

James A. Emery of the National association of Manufacturers, followed Darrow on the stand. He remarked that McNamara received fees for his dynamiting jobs, and added that he supposed "even a martyr had his perquisites."

Mr. Emery said if he were a laborer he would far rather be subjected to the industrial laws of America than those of Great Britain.

John D. Rockefeller, Jr. who is to testify with relation to the Colorado coal strike and correspondence developments since his appearance before the commission in New York was in Washington today ready to appear but the commission did not reach him. He will be called tomorrow.

Commissioner O'Connell read into the record a letter from Secretary of Labor Wilson, denying a statement by Walter Drew of the National Erectors' association that the department of labor was used in the interest of the "closed shop."

Secretary Wilson said the department handled cases in the interest of labor where closed shops or open shops were involved or where there was no organization.

## EXPRESSES HOPE THAT NAON WILL BECOME PRESIDENT OF ARGENTINA

Pennsylvania Governor's Remarks, Following Address by South American, are Applauded.

Harrisburg, Pa., May 18.—Hope that Romulo Naon, ambassador from the Argentine republic to the United States would become president of his native land was expressed by Governor Brumbaugh today after the South American had delivered an address to the Pennsylvania legislature in which he spoke of "Pan-Americanism and European War."

The governor's remarks were applauded. Ambassador Naon addressed the legislature by invitation. He spoke for human solidarity of the nations of the earth and said that there would be in the western hemisphere an American solidarity based on right, justice and on reciprocal tolerance, that would be an example to the rest of the world. In his address there was a hope expressed that the republics of the western world may co-operate to bring about a lasting peace among the peoples of Europe.

"In the face of this enormous catastrophe the bearing of America cannot be but expectant and reconstructive if as I believe, there is still reason to trust that the idea of human solidarity is the final end of social evolution. May God grant that inspired by our community of interests, all the nations of America before long may co-operate in the task, a thousand times blessed, of restoring lasting peace and friendship among the peoples of Europe together with the sentiment of that solidarity as the basis for their future action."

## THORPE ADDRESSES ILLINOIS DAILY NEWSPAPER ASSOCIATION

Tells Members How Investigation Department of Newspapers Strengthens Relations Between Advertisers and Purchasers.

Chicago, May 18.—Merle Thorpe, Dean of the School of Journalism of the University of Kansas, today told members of the Illinois Daily Newspaper association how the research and investigation departments of newspaper are strengthening relations between advertisers and purchasers.

"Newspapers are dealing honestly with their advertisers," he said. "There are some papers today in which a fur manufacturer cannot advertise his goods in July."

A Chicago daily paper canceled a \$500 contract with a shoe manufacturer because the investigators found the brand of shoes sold only at an outlying store in the suburbs. The newspaper told the manufacturer that it refused to send its readers from store to store looking for those shoes when they were practically not in the Chicago market.

## War News Summarized

The Imperial German chancellor, in outlining in the Reichstag the concessions which Austria-Germany had offered to Italy, conditional on Italian neutrality, referred to the strained relations between Italy and Austria. With its parliament the Italian people will now decide whether it will reach the fulfillment of all its national aspirations in the widest extent in a peaceful manner, or whether it will plunge the country into war. I will not give up the hope entirely that the scale of peace will be heavier than the scale of war. If the alliance is torn by one of the three partners, we shall know, together with the other partner, how to meet the new danger with dauntless confidence and courage.

Italy as yet has made no decision. The parliament is to meet Thursday and it is possible that action may be delayed until that time. Meanwhile, the German and Austrian ambassadors have been in conference with the Italian foreign minister.

Special trains are waiting to carry them out of the country if their departure becomes necessary. One report has it that the ambassadors have demanded their passports.

In London matters of supreme interest are the possible formation of a coalition government and Earl Kitchener's call for 300,000 additional men to form new armies.

The British secretary for war, speaking in the house of lords, announced that as the Germans had persisted in the use of asphyxiating gases, the British and French governments were of the opinion that their troops must be "adequately protected by the employment of similar methods."

In the war zones reports of the actions contain no outstanding feature. In fact, rains and mists have interfered seriously with the operations in Flanders and France, where during the past week a most determined movement by the French and British has been making headway.

A fierce battle is going on in Galicia, the fortress of Przemyśl being the objective of great German and Austrian armies. The western forts of Przemyśl have been heavily bombarded and between them a stronghold, which is now held by the Russians, and the Dniester river, the Austro-German armies, attacking with the utmost determination have captured several Russian trenches, although "at the cost of enormous sacrifices," according to the Russian statement.

The Tonic allies, Vienna reports, have forced a passage of the San river at several points and secured a foothold on the eastern bank. The Russian prisoners taken during the first half of May the Austrian war office says, numbered 174,000.

## AAGUM' NT ON MOTION TO DISMISS INJUNCTION IS CONTINUED

Untermeyer Will Conclude Argument for Motion and Bailey Will Close for the Bank Today.

Washington, May 18.—Argument on the motion of counsel for Secretary McAdoo, Comptroller of the Currency Williams and Treasurer Burke, to dismiss the temporary injunction against the treasury officials by the Riggs National Bank, continued today before Justice McCoy in the district supreme court.

Frank J. Hogan, concluded a lengthy address against the motion on behalf of the bank and Louis B. Brandeis briefly outlined the government's contention that the injunction should be dismissed. Samuel Untermeyer will conclude the argument for the motion tomorrow and will be followed by former Senator Bailey, who will close for the bank.

While Mr. Hogan was speaking, Justice McCoy remarked that he had seen in the case as presented no evidence of a conspiracy between the secretary and the comptroller against the bank.

## COMMUNICATE SOCIALIST PROGRAM TO BUREAU AT THE HAGUE

CHICAGO, May 18.—The peace program devised by the national committee of the Socialist party in pursuance of resolutions adopted here last week was communicated to the International Peace Bureau at the Hague today. It provides:

Terms of peace at the close of the present war in Europe must be based on the following provisions: no indemnities; no transfer of territory except upon the consent of the people within the territory; all countries under foreign rule, to be given independence if demanded by the inhabitants of such countries; an international congress with permanent committees; special commission to consider international disputes; international ownership of strategic waters, neutralization of the seas; universal disarmament; abolition of manufacture of arms for private profit; no increase in existing armaments; no naval or military appropriations, political democracy; abolition of secret diplomacy; universal suffrage.

## COMPLETE PRESENTATION OF EVIDENCE IN LIBEL SUIT

Roosevelt and Barnes Give Additional Testimony—Case Will Probably go to Jury Thursday.

Syracuse, N. Y., May 18.—The presentation of evidence in William Barnes' suit for libel against Theodore Roosevelt was completed in the supreme court here late today, after both principals had given additional testimony. Counsel will sum up tomorrow. Before Thursday afternoon the case undoubtedly will be in the hands of the jury.

Colonel Roosevelt told what he represented to be the true details of an interview he had about a year ago with John W. Hutchinson, Jr., a New York lawyer who swore on the witness stand last week that the former president had told him that "the Republican party is not big enough to hold Mr. Barnes and myself."

In regard to that quotation the colonel almost shouted that it was false.

He said he did tell Mr. Hutchinson that he was willing during the last gubernatorial campaign in this state to support a Republican candidate who would wage war on Republican and Democratic "crookedness" but that he could not be expected to come back in the Republican party as long as it was "dominated by men of the stamp of Mr. Barnes."

Mr. Barnes under cross-examination freely admitted that he had been presented with fifty shares of stock in the J. B. Lyon company of Albany. He said he took the stock because he wanted to be a business partner of J. B. Lyon, founder of the printing concern, so that he might properly be associated with public printing. He said the stock was worthless at the time he received it. Testimony given during the early days of the trial was to the effect that Mr. Barnes sold back stock in the Lyon company after holding it for a number of years for a considerable sum.

Under re-direct examination Mr. Barnes swore that he always had the best interest of the Republican party at heart and that he never had done anything which he considered might be in the interest of the Democratic organization.

Among other witnesses who testified today were Simon Guggenheim, former United States senator from Colorado, and William Leach, private secretary to Colonel Roosevelt when he was president and later collector of the port of New York.

## DECATUR G. A. R. PROTESTS RETURN OF WHITE BANNER TO NEW ORLEANS

DECATUR, Ill., May 18.—Dunham Post, G. A. R. tonight went on record as opposed to the return to the City of New Orleans of the White Banner in Memorial Hall, Springfield, as proposed to have been presented to Andrew Jackson by women of the city before the battle of New Orleans. A bill providing for the return already has passed the house.

The preamble to the bill asks its return that it "may be viewed and enjoyed by such of the ladies as survive who gave it." Dunham Post asserts that the youngest woman of the company that presented the trophy to Jackson would now be more than 118 years of age. It contends that the banner, which was a national trophy, had no right to be in the hands of Louisiana state troops from whom it was captured by Union soldiers during the Civil War.

## FEDERAL COMMITTEE PROBES CATTLE EPIDEMIC AT NILES

BENTON HARBOR, Mich., May 18.—United States Senators Gore and Kenyon, members of the federal committee appointed to investigate circumstances surrounding the epidemic of foot and mouth disease, came into Michigan from Illinois today.

They began taking testimony at Niles were farmers, cattlemen and state officials were questioned as to the origin of the disease and steps taken to prevent it. It has been charged that when the plague was first discovered near Niles a wrong diagnosis was made thereby causing hundreds of cattle to become unnecessarily affected. It has also been stated that the epidemic originated in this county last fall and spread from here to other states.

## WATERLOO ENTERTAINS PEORIANS.

Waterloo, Iowa, May 18.—This city entertained a delegation of two hundred Peorians late afternoon, the visitors arriving in a special train, coming here from Cedar Rapids. The visitors are making a tour of Iowa, Minnesota, Wisconsin and Illinois cities in the interest of Peoria, Illinois, enterprises. The party is at Mason City tonight and will visit the Twin Cities Wednesday.

## GOILITTI WILL NOT ATTEND SESSION OF CHAMBER OF DEPUTIES

ROME, May 18.—(9:15 a. m.)—Via Paris, May 19.—(3 a. m.)—While the train bearing former Premier Giolitti to his home in Cavour was passing through an Italian village today Signor Giolitti said he had decided not to attend the session of the chamber of deputies next Thursday because his presence there might give occasion for scenes of violence between the partisans of the war and peace factions. Such a scene, he added, might cause the serious impression abroad that Italians will be divided when the government announces its program. "It is a pity," Signor Giolitti added, "that I am not thirty years younger. I would take my gun and go to the front."

## ANOTHER INDIAN OUTBREAK FEARED

### AMERICANS IN YAQUI VALLEY ARE NOT YET SAFE

Villa Troops Being Dispatched to Scene to Control Situation—Americans Ready to Proceed to Coast in Case Troops do not Quell Disturbance.

Washington, May 18.—While inquiries at the state department over the safety of Americans in the Yaqui Valley, Mexico, were being answered today with assurances that the colonists were in no present danger, officials still are apprehensive of another Indian outbreak at any time.

Governor Maytorena, heading the Villa administration in Sonora is said to have despatched all the troops he can spare from nearby garrisons and believes they can control the situation. It is known however, that the best of all troops in the state have joined General Villa in prolonged battle with the Carranza forces under Obregon, south of Leon.

The colonists are concentrated at Yaqui Pueblo, ready to proceed to the coast if the troops do not quell the disturbance so they can return to their properties.

### Villa Forces Recapture Panuco.

Advices from Mexico today were meager. Consul Shillman, at General Carranza's headquarters in Vera Cruz, reported the re-capture of Panuco, near Tampico, by the Villa forces. The situation as to British oil supply which caused uneasiness ten days ago is again made acute by this development, since the Villa troops control the producing wells and the Carranza forces the terminals at Tuxpan and Tampico. No advices came from central Mexico, where the Villa and Obregon armies are engaged. Except for contradictory reports given out at Chihuahua and Vera Cruz, nothing has been allowed to reach the outside world about progress of this conflict, on which probably hangs the eventual success of one faction or the other.

The state department made this announcement tonight.

"It is stated that the constitutional administration at Vera Cruz has sent fifty teachers to the United States on the Monterey to go to different institutions in the eastern section of the United States. The minister of public instruction delivered a farewell speech to the teachers, pointing out the great advantages to be derived by the Mexican people from the establishment of schools and the extension of educational facilities."

### Indians Declare War.

On Board U. S. S. Colorado, off San Diego, Calif., May 18.—Yaqui Indians who have been besieging white settlers in the state of Sonora, Mexico, issued a proclamation today declaring the Yaqui nation at war with Mexico. They have captured the pumping station at Banatuel, near Empalme where are located railroad shops valued at ten million dollars.

## ALTON MINISTER PLEADS "OR EXTENSION OF UNITARIAN WORK

Rev. Curtis W. Reese Speaks Before Western Unitarian Conference at Cincinnati.

Cincinnati, O., May 18.—Proclaiming the tens of thousands of cultured people have not heard the word "unitarian" except in connection with Prof. W. H. Taft, the Rev. Curtis W. Reese of Alton, Illinois, in speaking before the Western Unitarian conference here today, pleaded for an extension of the Unitarian work.

"We have been called to put religion into business," he continued, "and we must put business into religion because the life of religion is competition. The Liberals have thought of themselves as a refuge for the logical outcasts but the church must not be merely a refuge. People must be brought in. Preaching must carry cheer and the gospel of life. The church must be a success both from the standpoint of the business man and statesman, as well as that of the philosopher and theologian."

Reports dealing with the work of the conference during the last year were read at today's session.

### GRIFFITHS DEFEATS MANDOT.

Memphis, Tenn., May 18.—John Griffiths of Akron, O., won the decision over Joe Mandot of New Orleans in an eight round bout here tonight.

### BULLETIN.

LONDON, May 19.—(4:15 a. m.)—"Never since the war began has any one day brought so grave a bulletin as that received late last night," says the Petrograd correspondent of the Post. "On this occasion for the first time since hostilities opened, I failed to find any indications that suggest a promising set off to what on its face seems something like a collapse of the Russian forces. Over a front extending some 200 miles the Germans have caused the Russians to retreat."

"After the experiences of the past few months this seems almost incredible and almost compels the belief that the entire situation remains hidden. The official organ conveys the impression that what the Russians have done is only to succeed in escaping annihilation by a series of more or less masterly movements to the rear. It is admitted that the German plan of compelling the abandonment of an invasion of Hungary by a fierce onslaught from Cracow has been successful."

### BULLETIN.

LONDON, May 19.—(2:59 a. m.)—A despatch to the Central News dated Tuesday says:

### BULLETIN.

ROME, May 18.—via Paris, May 19.—(3:05 a. m.)—Admiral Hottel, former minister of marine, when asked tonight concerning his impression as to the political situation said:

"My impression is that we shall undoubtedly fight and that we are absolutely certain to win."

### BULLETIN.

London, May 18.—(11 p. m.)—The next few days, if not hours, will it be believed, find Italy renouncing her old allies of the triple alliance and joining the triple entente powers as a belligerent. At the same time some change is expected in the government of Great Britain.

The German imperial chancellor in speech in the Reichstag today outlined the offers that had been made to Italy as the price of her continued neutrality and while he said he had not entirely given up hope that peace would be maintained among the powers of the triple alliance, he left no impression on the minds of his hearers that the end of the alliance, so far as Italy is concerned, is far off. It is anticipated that the expected changes in the government of Great Britain are aimed at a closer consolidation of all the parties for the purpose of carrying the war to a successful issue. Whether the leaders of the Unionist, Irish and labor parties will be taken into the cabinet or admitted into the committee of imperial defense has not yet been made known.

### Kitchener Expresses Confidence.

Whatever the changes to be made, however, they have not in any way interfered with the operations in which the British forces are engaged. In giving an outline of these operations in the house of lords today, Lord Kitchener, the war minister while expressing the greatest confidence in their ultimate outcome, again warned the public that great sacrifices already had been made and that greater ones would be expected. He made an appeal for 300,000 more recruits.

Lord Kitchener, however, seemed to attach the greatest importance to the use by the Germans of asphyxiating gases and opened his speech with a reference to this matter. "Our troops," said Lord Kitchener, "must be adequately protected by the employment of similar methods."

Meanwhile the British first army to the north of La Bassée and the French forces to the south of the town continue their offensive against the German line and, according to their respective commanders, still are making progress. The German official statement, however, takes issue with the allied commanders in this respect and declares that all the offensive movements against the Germans have been repulsed. The same inconsistency appears in the reports of the fighting along the

After an animated debate yester-  
day the Illinois senate went on re-  
cord as in favor of a larger navy.  
The figures show that with 225 ves-  
sels in active service and 101 in re-  
serve that the U. S. is in by no  
means an indefensible condition but  
there is a growing sentiment in this  
country for a navy which more  
nearly equals that of the greatest of  
the European powers. A powerful  
navy it is now recognized does not  
stand for an increase of terri-  
tory and for war, but rather as a  
means of peace.

A well reserved blow at the "tip-  
ping trust" was dealt in the general  
assembly Tuesday when the Merritt  
bill was passed by the lower house  
with a vote of 117 to 6. The pur-  
pose of the measure is to prohibit  
the leasing of cloak rooms, shoe  
shining stands and the places of the  
kind for the purpose of obtaining  
gratuities. It is a known fact that  
the employees in many such places,  
both young women and men, are  
paid small salaries and must turn  
over all monies received to their  
employers. The legislature would  
have done well to have gone a step  
further and made tipping in hotels  
and on railroad trains unlawful.  
There does not seem to be any good  
reason why the patrons of hotels  
and on sleeping coaches should be  
required to pay the wages of por-  
ters and bell boys, in addition to  
other fixed charges.

**The Child's Brightest Moment.**  
If the statement made by a nerve  
specialist before the Chicago Medi-  
cal society be true there would not  
be much disadvantage in lengthen-  
ing the noon hour in our public  
schools. This doctor declares that  
the minds of school children are at  
the dullest between 11 o'clock in  
the morning and noon. According  
to his idea the child's mind works  
on the following schedule: most ac-  
tive, 8 to 10:15 a. m.; second best,  
3 to 4 p. m., and dullest 11 a. m.  
to 12 noon. If the case were sub-  
mitted to a committee of school  
children they would no doubt decide  
that the best thing for all concerned  
would be to have the noon recess  
begin at 11 o'clock.

**Summer Band Concerts.**  
The movement for a popular sub-  
scription fund to make it possible  
for the Jeffries concert band to give  
a series of open air concerts in the  
city parks this summer deserves  
hearty support. No personal solici-  
tation will be undertaken but sub-  
scriptions will be received by both  
the Courier and the Journal and  
announced in both papers. Some  
publicity will be given the project  
in both papers but if the fund is  
raised the whole will represent the  
voluntary wishes of the people who  
will thus express their appreciation  
of the band and who will also at-  
test their belief that the public en-  
joys band music.

The band is a credit to Jack-  
sonville, does much for the city and  
the raising of a fund for the pro-  
posed concerts will be simply giving  
the band members something of the  
credit due. No program of summer  
entertainment could be outlined  
which mean more of pleasure for a  
greater number of people.

**Birds Aid the Crops.**  
According to a local authority one  
reason there is a prospect of damage  
from chinch bugs and the Hessian  
fly in crops this season is because  
in past years the people have been  
so wonton in the destruction of  
birds. It is said that quails and other  
game birds in addition to those  
that are usually classed as domestic,  
have a great economic value in the  
combat with destructive insects.  
People have come more and more to  
recognize this fact and some laws  
have been passed for the protection  
of the birds and thus undoubtedly for  
the conservation of crops. But even  
these laws have not been string-  
ent enough. In this connection some  
facts set forth in a preliminary an-  
nouncement of the government's  
bird census are of interest:

Sixty pairs of English sparrows  
to the square mile, or 7 to every 100  
native birds, is the average through-  
out the United States, according to  
the "preliminary census of birds of  
the United States," taken under the  
direction of government biologists.  
The census seems to show that  
the bird most abundantly found in  
the United States is the robin, with  
the English sparrow a close second.  
In the northeastern United States,  
where the census was most thorough,  
there were, on an average six  
pairs of robins to each farm of 58  
acres. English sparrows averaged  
five pairs per farm. No other bird  
is anywhere nearly so abundant as  
either of these but some are nume-  
rous enough to make their total run  
into the millions. Taking 100  
robins as a unit, other desirable  
birds were noted in the following  
proportions:

Catbirds	49
House wrens	28
Brown thrashers	27
Kingbirds	27
Bluebirds	25

## The Two Mill School Tax.

There are many important meas-  
ures before the present session of  
the legislature. People will differ  
in their view as to the relative im-  
portance of a number of these bills.  
The Educational Press maintains,  
however, that there is a very gen-  
eral agreement that the most impor-  
tant bill of all is that which seeks  
to re-establish the two mill tax as  
the common school distributive fund.  
When the public school system was  
laid upon a real and permanent  
foundation in 1855, a tax of two  
mills was placed upon all the prop-  
erty of the state, the proceeds of  
which were to be distributed to the  
various school districts of the state  
upon the school census. That tax  
was paid and the proceeds distrib-  
uted until 1870. The new constitu-  
tion made it necessary for the leg-  
islature to appropriate specifically all  
the moneys that, in any way, came  
into the state treasury. It was sug-  
gested that in lieu of the two mill  
tax, the legislature would, therefore,  
appropriate a given amount for each  
biennium. As the distributive fund  
at that time was yielding \$900,000,  
it was considered wise and generous  
for the legislature to appropriate a  
million dollars annually for the next  
biennium, and the law relating to  
the two mill tax was modified so  
that each succeeding legislature down  
to that which met in 1909 simply  
appropriated in lieu of the two mill  
tax, a million dollars annually.

The State Teachers' association  
had begun a campaign as far back  
as 1880 to restore this two mill tax.  
Most of the early efforts, however,  
were defeated by asking the legis-  
lature for large appropriations, such  
as five millions of dollars annual-  
ly.

In 1909 the educational commis-  
sion representing the State Teachers'  
association decided to ask for an  
addition of one million dollars to  
the distributive fund, with the un-  
derstanding that at each subsequent ses-  
sion of the legislature another mil-  
lion should be added until a sum  
equivalent to the proceeds of a two  
mill tax was reached. Since that  
time another million has been added,  
making the distributive fund three  
millions of dollars annually. It  
would take another million and a  
half, or approximately four millions  
and a half altogether, to equal the  
proceeds of such a tax. It has been  
found absolutely impossible, by local  
taxation, to provide many of the  
things that are now being demanded  
of the public schools. The enlarge-  
ment of the distributive fund will  
make possible such achievements.

## Mimic War Has New Meaning.

Yesterday when the Atlantic fleet  
steamed out of New York harbor it  
was divided into strategic divisions  
for the defense of the Atlantic coast  
against an imaginary enemy. Rear-  
admiral Batty is commanding a  
small fleet which represents the Ar-  
mada of the enemy and the remain-  
der of the fleet is assigned to the  
task of defending the coast from  
Cape Hatteras to Eastport, Maine.  
The elaborate plans for the defense  
maneuvers have of course not been  
made public, but it is understood  
that the operations which the fleet would  
be certain to use if called upon to  
make a sudden defense.

Ordinarily this mimic warfare  
would attract only somewhat casual  
notice from the average Ameri-  
can who will read the published re-  
ports of the maneuvers, but at this  
time it is safe to predict that the  
description of this naval war-  
fare will find an eager audience of  
readers the country over. Events in  
Europe the past few months have  
tended greatly to focus public inter-  
est on the army and especially the  
navy and this interest has been in-  
tensified to a very great degree be-  
cause of the sinking of the Lusitania  
and the subsequent negotia-  
tions between the United States and  
Germany.

Probably not a great many Ameri-  
cans have known much or thought  
much about the naval defenses of  
the United States but now each citi-  
zen is taking pride in the thought  
that while the United States does  
not have as large a navy as some of  
the European powers, that it never-  
theless has what was recently term-  
ed "the greatest free navy in the  
world." This means that the United  
states navy is the largest of any  
country not now at war.

To be specific, the navy today in-  
cludes 225 vessels in active service  
and 101 in reserve. There are 77  
under construction and authorized  
including nine dreadnaughts, twenty-  
three destroyers, thirty-eight sub-  
marines and seven auxiliaries. There  
is still another fact in which  
Americans can take pride—a con-  
ceded fact—that no country on the  
globe has a higher class of men do-  
ing naval service. As a naval ex-  
pert wrote not long ago in a leading  
magazine "The day of the drunken  
tar is past and today we have on  
our vessels instead young men who  
represent the best citizenship of the  
land."

## DESPATCH STATES SUBMARINE WAR IS SUSPENDED TEMPORARILY

NEW YORK, May 19.—Orders  
suspending submarine operations  
against merchant vessels have been  
issued by the German government  
pending the outcome of negotiations  
regarding the representations made  
by this government in President  
Wilson's note according to a Wash-  
ington despatch to the Times this  
morning.

The Times says the information  
was obtained in a well informed  
quarter, after cable press despatches  
had said a German submarine fired  
a torpedo at the liner Transylva-  
nia on her trip from New York to  
Glasgow, ended Monday. It was  
stated at this source of information  
that the report about the Transylva-  
nia could not be correct "for the  
reason that submarine activity has  
been discontinued by the German  
government."

## WOMEN IN THE NEWS.

Atlantic City, N. J.—Miss Bessie  
Townsend, Atlantic City's girl  
comptroller, has a big undertaking  
on her hands this week. She is  
disposing of \$663,000 worth of mu-  
nicipal bonds for resort betterments.

Washington—One of the most  
active women in public life today  
is Mrs. J. Borden Harriman, who  
is sitting as a member of the Fed-  
eral Commission on Industrial Rela-  
tions. A the only woman member  
of this important board which is  
sifting the modern workings of in-  
dustry in its relation to the work-  
ers, Mrs. Harriman is taking a liv-  
ely interest in all phases of the in-  
vestigation, and is determined that  
the role of Portia will be filled to  
the best of her ability in order to  
encourage further appointment of  
women on important federal boards.  
Mrs. Harriman is a close friend of  
the president. Her interest in wel-  
fare work is of long duration, for  
she was for many years manager of  
the State Reformatory for Women  
at Bedford, New York.

Philadelphia.—A duplicate of the  
famous Liberty Bell is now on its  
way through Pennsylvania, as a  
suffrage booster. The bell will  
reach Pittsburgh on July 4th. Zig-  
zagging back to Philadelphia, the  
bell will reach here on October 30.  
It will be escorted to Independence  
Square on November 2, on the night  
of the state election, after the vote  
on the suffrage amendment has been  
counted. The bell will not be rung  
until women have been given the  
vote in Pennsylvania.

Lexington, Ky.—The Kentucky  
Federation of Woman's Clubs met  
here today, and many able speakers  
and several elaborate entertain-  
ments have been secured for the  
event. Dr. R. Yarros of Chicago will  
speak on Social Hygiene, Mrs. G. E.  
Stephens of Toledo, will discuss  
Kentucky's need of an art museum,  
and Miss Helen Varick Boswell, who  
organized women's clubs on the  
Isthmus of Panama, will speak on  
"What Today Calls For."

Iowa City.—The biennial con-  
vention of the Iowa Federation of  
Women's Clubs will be held here  
for four days, opening tomorrow.  
Tomorrow evening the students of  
Iowa University will present a  
Greek play, and on the closing eve-  
ning will give a pageant on the cam-  
pus, in honor of the visiting women.  
Programs, lectures, and reports will  
occupy the morning sessions, and  
work conferences have been arrang-  
ed for the afternoons. A prominent  
speaker who will come is Miss Har-  
riet Vittum of Chicago, head of the  
Northwestern University settlement  
work.

Minneapolis.—Professor Emeri-  
tus Maria L. Sanford, of the Uni-  
versity of Minnesota, who is nearly  
79 years old, recently completed a  
lengthy western speaking trip, dur-  
ing which she spoke in many towns  
in five western states. She will un-  
dertake another journey next month  
this time to Montana. She taught  
in schools and universities for 57  
years, half of which were spent at  
the University of Minnesota as pro-  
fessor of rhetoric and elocution.

Boston.—In a little room at the  
Massachusetts State House, sur-  
rounded by countless millions germs  
of all kinds, Miss Edith A. Becker,  
a state bacteriologist, is playing an  
important part in the preventive  
disease epidemics in the old Bay  
State. She does not consider her  
work dangerous although she makes  
many thousands of tests for the  
state authorities.

Pekin.—To Dr. Yamei Kin, the  
first woman doctor of modern Chi-  
na, has been entrusted the task of  
organizing a medical department for  
women in northern China. Dr. Kin  
came to America twenty years ago  
to be educated, and completed her  
medical course in New York.

## LETTER RE-AFFIRMS PRESIDENT'S STAND ON THE LIQUOR QUESTION

LOUISVILLE, Ky., May 18.—A  
letter from President Wilson was  
made public here today re-affirming  
his position on the liquor question  
and clarifying two previous letters  
on the same subject. Known as  
the Shannon and Grogan letters,  
they were written when Mr. Wilson  
was governor of New Jersey. The  
Shannon letter favored local option  
as a means of settling liquor issues.  
It stated if they were injected into  
state or national politics they  
brought disruption and rendered  
constructive legislation impossible.  
The Grogan letter has been construed  
in Kentucky to mean the writer  
favored state wide prohibition.

## CANNOT REGARD ITALY'S ACTION AS FORMAL

Amsterdam, via London, May 19.  
—(2:48 a. m.)—A copy of Berlin  
Tagblatt which has been received  
here contains the following: "Italy's  
intimation to Vienna concerning the  
denunciation of triple alliance cross-  
ed Austria's notification to Rome of  
concessions offered Italy by Austria.  
Therefore Italy's action cannot be  
regarded as a formal denunciation  
of the alliance."  
"Moreover Berlin has received no  
communication whatever bearing on  
the triple alliance."

## REPORTS REVOLT AT POLA.

Rome, May 18.—via London, May  
19.—(2:06 a. m.)—The Idea Na-  
zionale reports a revolt at Pola on  
the Adriatic. It is asserted that ten thou-  
sand Austrians employed there came  
into conflict with the troops and that  
fifty persons were killed and a hun-  
dred wounded.

## SHIP OUT STRAWBERRIES IN SIXTY-CARLOAD LOTS

Sixty carloads per day is nothing unusual in the way of strawberry shipments from the belt around Hammond and Independence, La., says Byron Armstrong, who returned a few days ago from a sojourn in Louisiana and Texas. Mr. Armstrong is himself in the strawberry business, being associated with George Haas in a company at Abita, Tex., a city a few miles from the Gulf of Mexico at Galveston and a short distance south of Houston. About five hundred acres are planted in the berries at Abita. In the Louisiana fields the acreage sometimes reaches thirteen thousand. The berry season in the Texas lands begins about April 4 and continues unabated for three or four weeks. Though smaller than the berry growing region of Louisiana, the Texas fields grow a fruit of high quality and Mr. Armstrong seemed well satisfied with the crop of the present season.

### JITNEY HEARING TODAY.

The jitney bus hearing today the Illinois utilities commission is scheduled for 10 o'clock this morning in Springfield and a number of Jacksonville citizens will attend. It will be remembered that this is a test case to show whether or not the utility commission has authority over jitneys operating in Illinois cities. The hearing is the result of a petition filed by the Jacksonville Railway & Light company against L. F. O'Donnell and others doing business as the Motor Transportation company.

### MR. AND MRS. JOHN BODDY HAVE VERY FINE COUNTRY HOME

Residence Recently Erected Includes Every Modern Convenience—Mr. Boddy a Successful Hog Raiser.

One of the progressive young farmers of the county is John Boddy, residing a mile west of Markham station on the farm property formerly owned by his father, the well known Michael Boddy, the sturdy Englishman who made this land his home the greater part of his life.

John Boddy was married to Miss Rose Walter of this city and they began farm life in a sensible way in three small rooms and worked till he was able to do better and he recently moved into a new and commodious home which is supplied with every modern convenience. It has a basement with set soapstone washbasins, a vegetable department and furnace room and in it too is the compressor which supplies the pressure which forces hot and cold water all over the house. The house is heated with the latest improved furnace, has hard wood floors, a toilet and bathroom up stairs, a down stairs bedroom and up stairs bedrooms for the children and a play room for the little girls.

The general plan is convenient and conducive to comfort and it is needless to say is much enjoyed by the owners. A large, new barn is built with concrete floor in the center, stalls on one side and part of another for a lot of horses, granaries for corn, oats and wheat, sheds and other spacious, concrete floored buildings are soon to be erected and when finished John and his family will have as comfortably and conveniently a place as will be found anywhere in the county.

Like his father, Mr. Boddy makes a pet of all the many animals on his farm and he has a lot of them. In hogs he has been quite successful and believes in vaccination and doing it early before there are any signs of cholera among the hogs. He thinks he has done better with his swine in this way than some who waited till later in the season. He has a lot of fine sows and a big lot of little pigs. He prefers the Berkshire breed to any other. He has on his place some white stock but means to get rid of it. He is very careful to guard against inbreeding and sends away a long distance for his made breeding stock so as to be sure of no consanguinity. At present he is feeding the old fashioned way and has done very well at it but as soon as he gets things into shape he means to do a lot of cooking of grain and vegetables for his hogs which thrive better on such feed.

Mr. Boddy also feeds some cattle as he doesn't believe in hauling the grain from the farm if it can be avoided. He prefers the Short Horns to any others as he regards them the best going for all purposes. Give him a high grade and he thinks he has the best for all things on the farm and is waiting to see anything better. He also has a lot of good horses but only for his own use.

He has 42 acres of as fine wheat as will be found anywhere. He has in his farm 187 acres all told and means to get more of it into grass. He prefers the bearded wheat for grain purposes but raises enough smooth wheat to supply straw for his stock as the straw from bearded wheat is bad for animals especially horses and cattle do not do as well on it. He has not as much fruit on the old home place as his father had as he has not long had possession of it and since his father's death and until he got possession the fruit of all kinds was not so well cared for and especially the grape vines suffered so they had to be destroyed. Along a field opposite the house is a long row of wild goose plums which produce delicious fruit when the season is good. Last year he says the fruit could be shoveled up under the trees.

Mr. Boddy and his wife are yet young and in the prime of life and have a lovely home which they well deserve and know how also to enjoy it and it is safe to say that it will not be necessary to preach back to farm to their children.

#### JUSTICE COURTS.

Alonso Mosely was taken into custody Tuesday by Deputy Sheriff Geo. L. Stice. He is charged by his wife, Mrs. Grace Mosely, with wife and child abandonment. He was taken before Justice Dyer and placed under bonds of \$100 for his appearance next Tuesday at two o'clock for trial.

Mattie Carpenter was arrested by Deputy Sheriff Geo. L. Stice on a state warrant, sworn out before Justice Dyer, by Charles Reed, charging assault and battery. She pleaded guilty and was fined \$3 and cost.

J. R. Mendonsa of 231 North Main street, was put under arrest by Constable A. Ferguson on a state warrant sworn out by J. E. Gallivan, deputy state fire warden, before Justice Coons. The charge was for violation of Sec. 9 of the Fire Marshal Act, in that the defendant failed after being notified on three occasions to clean up the premises occupied by him. The people were represented by States Attorney Robert Tilton and Judge W. E. Thomson was attorney for Mr. Mendonsa. After hearing the testimony of Fire Chief J. C. Wood several members of the city fire department and others who had a knowledge of the conditions of the premises, Justice Coons assessed Mr. Mendonsa with a fine of \$20, which with the cost totalled \$31.75.

Lewis M. Osborne, son of Mr. and Mrs. D. W. Osborne, traveling auditor for the Fleischman Yeast Co., of Columbus, O., has been located for the past month at Ashtabula, but is again in Columbus.

#### EUROPEAN WAR NOTES

London, May 18.—(9:52 p. m.)—The Russian Black Sea fleet according to news received by the Russian naval attaché, has destroyed in the Turkish coal mining district, one steamship and 36 sailing vessels. At Kösü, a pier, elevator and railroad have been destroyed.

Paris, May 18.—(10:25 p. m.)—The official statement given out this evening by the French war department says:

"Continuous rains since Monday night and a thick mist, making it impossible to see for a distance of 100 meters (about 300 yards) have rendered operations impossible. There have been no engagements on the entire front. Even the cannonading has been very weak."

Constantinople, Turkey, May 18.—via London, (7:05 p. m.)—The following official statement was issued here today:

"On the Dardanelles front, near Avic Burnu, there have been very small artillery and infantry engagements but no important action. Some small transport ships have been damaged by our shells."

"Our troops on the right wing have re-taken a height 200 meters from our positions."

"A French cruiser yesterday landed near Sarskale, west of Mekri, on the southern shore of the gulf of Smyrna, sixty soldiers who fled when our coast guards replied to their rifle fire. Other cruisers landed about 100 soldiers near Sefat, west of Tenka. On the night of May 15-16, two enemy ships which were cruising near the Smyrna forces retired after being damaged by our batteries."

Vienna, via London, May 18.—(10:30 p. m.)—The official communication issued by the war office this evening says:

"The troops of the Teutonic allies after furious fighting have forced a passage of the San river at several points and secured a foothold on the eastern bank. Russian counter-attacks were everywhere decisively repulsed and the enemy thrown back in an easterly direction."

"On the upper Dniester, vigorous fighting is proceeding."

"On the Pruth line, no particular event has been reported."

"Isolated Russian attacks north of Kolomena have been repulsed."

"The total number of prisoners brought in during the first half of May was 174,000."

#### GERMAN CHANCELLOR OUTLINES CONCESSIONS MADE BY AUSTRIA

Dr. Von Bethmann-Hollweg Tells of Efforts to Ensure Enduring Peace With Italy.

Berlin, May 18.—Via London, (7:53 p. m.)—"You are aware" said Dr. Von Bethmann-Hollweg, the imperial chancellor, speaking in the Reichstag today, "that the relations between Italy and Austria-Hungary within the last months have been strongly strained."

"From the speech made yesterday by Count Tisza you will have gathered that the Vienna cabinet in a sincere effort to ensure enduring peace between the dual monarchy and Italy, and to take into account the lasting great vital interests of both empires, had resolved on far reaching concessions to Italy of a territorial nature."

"I consider it proper to indicate these concessions to you: 'First, part of the Tyrol inhabited by Italians was to be ceded to Italy.'

"Second, the western bank of the Isarno, as far as the population was purely Italian and the town of Gradisca, likewise was to be ceded to Italy."

"Third, Trieste was to be made an imperial free city, receiving an administration which would insure the Italian character of the city and to have an Italian university."

"Fourth, Italian sovereignty over Avlona, (a seaport of Albania) and a sphere of interest belonging thereto, was to be recognized."

"Fifth, Austria-Hungary declare her political disinterestedness regarding Albania."

"Sixth, the national interests of Italians in Austria to the particularly respected; 'Seventh, Austria-Hungary to grant amnesty to political prisoners belonging to the ceded territory.'

#### NOTICE TO CONTRACTORS

Sealed bids will be received for the construction of one reinforced concrete bridge by the commissioners of Road District No. 10 at the office of the county superintendent of highways, until the hour of 2 p. m. Saturday, May 22, 1915. The commissioners reserve the right to reject any or all bids.

"Fred DeFrates' barber shop on the north side of the square is being treated to paint and decoration within and without."

#### WEAK, SORE LUNGS

Restored to Health by Vinol. Camden, N. J.—"I had a deep seated cough, was run-down, and my lungs were weak and sore. I had tried everything suggested with out help. One evening I read about Vinol and decided to try it. Soon I noticed an improvement. I kept on taking it and today I am a well man. The soreness is all gone from my lungs. I do not have any cough, and have gained fifteen pounds."—Frank Hillman.

#### NOW THE CHESTNUT MUST BE SAVED

Washington, May 18.—So serious has become the chestnut bark disease that in the opinion of the U. S. Department of Agriculture it is desirable to quarantine New England, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, Ohio, North Carolina, Iowa and Nebraska, or portions as may be deemed necessary. The disease has made such a wide spread that the Department of Agriculture will give a public hearing here today on the movement to restrict the shipment of nursery stock and chestnut lumber with the bark on.

The chestnut blight is of recent growth in this country. It is believed to have been brought in indirectly from China. It was found widely distributed in New York State. It is spread by the wind, birds and insects, and migratory birds may carry the disease for long distances.

The disease is caused by a fungus which rapidly kills the native chestnut trees and is spread chiefly by the distribution of nursery stock.

#### GOOD IF TRUE.

A gentleman from Greene county was in the city yesterday and said he had heard of a machine or contrivance of some kind which was calculated to gather chinch bugs from wheat fields and said that he had heard of one field of twenty acres which produced fifty gallons of bugs. He didn't give the story from observation but said he had so been informed and certainly if true the affair will meet with a wide sale.

#### TO ELECT JERSEY BISHOP.

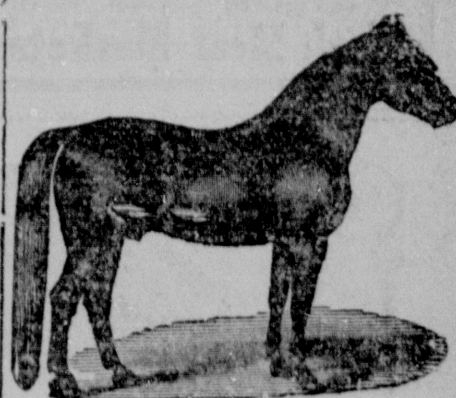

Newark, May 18.—At the 41st annual meeting of the Episcopal Diocese of Newark, which opened this morning, the selection of a coadjutor bishop to assist Bishop Edwin S. Lines will be made. Dr. Alexander Mann was the choice made last January, but Dr. Mann declined to leave his parish at Trinity Church, Boston. It is expected that a member of the New Jersey clergy will be elected to the office.

#### DREAMERS AND WORKERS

The dreamers sit and ponder on distant things and dim, across the skyline yonder, where unknown planets swim; they roam the starry reaches—at least, they think they do—with patches on their breeches and holes in either shoe. The workers still are steaming around at useful chores; they always save their dreaming for night, to mix with snores. They're toiling on their places, they're raising roasting ears, they are not keeping cases on far, enchanted spheres. They're growing beans and carrots, and hay that can't be beat, while dreamers in their garrets have not enough to eat. Oh, now and then a dreamer, is's most unduly smart, and shows he is a screamer in letters or in art; but where then a dreamer ten thousand dreamers weep because they lack a dinner, and have no place to sleep. There is a streak of yellow in dreamers, as a class; the worker is the fellow who makes things come to pass; he keeps the forges burning, the dinnerpail he fills, he keeps the pulleys turning in forty thousand mills. The man with dreams a-plenty, who lives on musty prunes, beside him looks like twenty or eighteen playunces.

# GREATEST PIANO SALE of the Year

The Great Kimball  
building being wrecked  
to make room for the  
mammoth

\$2,000,000

skyscraper

A \$2,000,000  
REASON

Greatest Undertaking  
in the Musical World

THE large present  
headquarters and  
warerooms of the  
great Kimball Com-  
pany wrecked to make  
room for the mam-

moth \$2,000,000 skyscraper which when completed will be the LARGEST and most PALATIAL edifice in the world DEVOTED EXCLUSIVELY TO MUSIC. To do this will necessitate the most gigantic piano movement ever contemplated, for two reasons—First, that of room; these immense warerooms are crowded with hundreds of pianos. The artists' studio in this building also contains hundreds of the finest products of the GREAT KIMBALL FACTORIES, which for years have been the ARTISTS' FAVORITE. These must be DISPOSED OF AT ONCE to permit building operations. The proposed expenditure of over \$2,000,000 will call for an enormous amount of cash, which will take even the inexhaustable resources of this great company. Therefore this entire stock will be sold at prices never before approached on the world's leading piano.

Plan of distribution through J. Bart Johnson, direct from factory to home—100 of the world's leading pianos, direct from the great KIMBALL factories, have been allotted to Jacksonville and vicinity.

Everything Must Go! Nothing Held Back—These Bargains Tell Their Own Story. Pianos that were \$250, \$275, \$300, \$375, \$400, reduced to sale price \$125, \$154, \$175, \$200, \$225, \$250, \$275, \$300, \$325, \$350, \$375, \$400, \$425, \$450, \$475, \$500, \$525, \$550, \$575, \$600, \$625, \$650, \$675, \$700, \$725, \$750, \$775, \$800, \$825, \$850, \$875, \$900, \$925, \$950, \$975, \$1000.

All Pianos are Marked in Plain Figures—that is Fair and Equitable to All.

## We'll Take Your Silent Piano In Exchange

If you already own a "Never-played" piano, or a player-piano that fails to give you perfect satisfaction, we will take it in part payment on our Player-pianos at its full value. The balance may be paid in quarterly or yearly payments, as will best suit your convenience. In addition to the Kimball, the J. Bart Johnson, Lindenburg and Angelus.

# Maxwell

## "The Wonder Car"

## Only a Blindfolded man would buy an automobile today without looking the Maxwell over

There's no excuse today for any man who is "jollied" into buying a car before he looks over the 1915 Maxwell.

We give you the *two vital things* in this Maxwell Car and then the 17 new features that have made the 1915 Maxwell the most talked-about car ever produced.

Here are the two vital things that any sane man wants when he buys an automobile

In the first place

—a handsome, real automobile that he can be proud to ride in.

In the second place

—a powerful, fast, economical automobile that will take him anywhere and bring him back.

We give you these two vital things, and then just about every other detail of refinement, comfort and endurance that you can think of.

Take power and hill-climbing ability, for example—when you buy a 1915 Maxwell you buy an exact duplicate of the stock Maxwell cars in which "Wild Bill" Turner and "Billy" Carlson broke two World's Records in two of the toughest, roughest moun-

tain hill-climbs ever made—Mt. Hamilton and Mt. Wilson.

Take speed and endurance, for example—when you buy a Maxwell you buy a car made by the same designers—the same chief engineer—from the same Maxwell Laboratory, heat-treated, tested steel, that was used in the Maxwell Racers in which Barney Oldfield and "Billy" Carlson both broke the 300-mile non-stop race records in Corona and San Diego.

### Read This List of Expensive Features. The 1915 Maxwell Has These Features And Many Others.

#### Attractive Streamline Body

Pure streamline body; graceful crown fenders, with all rivets concealed. All the grace, style and "snap" that you will find in any of the highest priced cars.

#### A High-Tension Magneto

Nearly all the high priced cars have high tension magnetos. A high tension magneto gives positive ignition. The Simms magneto, with which the Maxwell is equipped, is recognized as one of the best magnetos made.

#### Left Side Drive—Central Control

Left side steer with gear shifting levers in center of driving compartment—center control—has been accepted by leading makers of expensive automobiles as the safest and most comfortable for the driver; that is why the Maxwell has it. The Maxwell is so easy to drive and control that a child can handle it.

#### Three-Speed Sliding Gear Transmission

All high priced cars have a sliding gear transmission. It is costly to make, but it is the best. If the motor has the power, sliding gears will

pull the car out of any mud or sand. The Maxwell has a three-speed selective sliding gear transmission because Maxwell engineers do not consider any other type to be worthy of the Maxwell car.

#### Double-Shell Radiator with Shock Absorbing Device

The Maxwell radiator is of handsome design, gracefully curved, and it is built to be trouble proof. It is the expensive double shell type and has ample cooling capacity. The radiator is mounted to the frame by means of a shock absorbing device on each side, which relieves the radiator of all twists and distortions of the frame, caused by roughness of the road. The shock absorbing device also minimizes the possibility of radiator leaks.

#### The Roomy Full 5-Passenger Body Adjustable Front Seat

The 1915 Maxwell has a full grown 5-passenger body. The front seat is adjustable, you can move it three inches forward or backward. This makes the car really comfortable for the driver. No cramped legs for tall people or uncomfortable reaching for short people. Most drivers' seats are made to fit anyone—no fit no one.

#### Low "Up-keep" Carburetor

The carburetor used on the Maxwell was especially designed for it after long and severe tests under every conceivable condition. Economy tours conducted by hundreds of dealers and owners in different sections of the country have proved its efficiency, its quick response to throttle and its extremely low consumption of gasoline. It has been termed the "low up-keep" carburetor.

#### Irreversible Steering Gear

The greatest margin of safety has been provided in the steering gear of the 1915 Maxwell. The Maxwell irreversible steering mechanism is of the expensive worm-and-gear type and its superiority over every other type lies in its many adjustments. At no time is more than a fourth of the bearing surface of the gear which operates the worm in use. When needed, a new bearing surface may be had by adjusting the gear a quarter of a turn. In short, the Maxwell steering gear has four times the adjustment of any other kind.

#### Heavy Car Comfort

What surprises most people is the smooth, buoy-

ant riding qualities of the Maxwell. The spring suspension of the 1915 Maxwell is the same costly combination of long semi-elliptical front springs and the three-quarter elliptic rear springs that is used on most heavy weight, high priced cars. The Maxwell offers you every essential of the highest priced machines at a fifth of their cost.

#### One Size of Tire—Anti-Skids on Rear

The Maxwell car is one of the easiest cars in the world on tires. Maxwell owners carry but one spare tire and but one size of spare tubes. Economical 30 inch x 3 3/4 inch tires are used all around. A famous make of anti-skid tires are supplied on rear wheels.

#### A Dependable Electric Starter

For \$55 extra, you can have your Maxwell delivered equipped with the famous Simms-Huff electric starter. This starter is efficient, trouble proof and easily operated.

And the Maxwell is completely equipped from the clear vision, ventilating windshield at the front to the spare tire carrier at the rear.

### The Maxwell Company's Guarantee of Service to Maxwell Owners

No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers—in every part of this country—are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices.

This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.

Order a Maxwell from us now, and when you want it delivered, we will give you your car—not an excuse on delivery day

## WORLD'S MARKET NEWS

## WHEAT PRICE IS GIVEN DECIDED SETBACK AFTER EARLY UPTURN DEALINGS IN STOCKS SMALLEST OF ANY FULL SESSION IN TWO MONTHS

Close is Nervous at 2 1/2 to 2 3/4 Cents Under Previous Finish—Other Speculative Articles Suffer Losses.

Chicago, May 18.—Associations by a leading expert that there had been no sufficient evidence yet to warrant belief in a general crop disaster had a good deal to do with bringing about a decided setback today in the price of wheat.

The market closed nervous at 2 1/2 to 2 3/4 under last night. Other speculative articles also finished at net declines—corn 1c to 1 1/4@1 3/4; oats 1/2@1/4 to 3/4 and provisions 5c to 10c.

Although high authority admitted that the government report June 1st, doubtless show a less favorable condition of the wheat crop than on May 1st, the opinion was expressed that in order to figure a loss already of 100,000,000 bushels a reduction of 25 per cent in the last two weeks would have to be assumed for Ohio, Indiana, Illinois, Missouri, Kansas and Oklahoma.

A majority of traders seemed disposed to agree that such an inference was difficult to accept in view of experience heretofore that Hessian fly damage has already been more or less local in character. Rains in Kansas and elsewhere promising material improvement in the field outlook gave the bears further advantage as to wheat.

Pessimistic rumors about Germany's answer to the American note tended also to pull down prices. In fact the only display of strength was a brief upturn early, the result of an advance at Liverpool.

Corn weakened with wheat. There was no activity in shipping demand. Besides cables and the weather both were bearish. Oats displayed relatively more firmness than other grain. The reason was commission house buying on resting orders that came into play at moderate declines.

When you wash your hair, don't use soap. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified cocoanut oil, or the like is pure and entirely harmless. It's very cheap, and beats soap or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub in the oil in a easy, gentle way that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh-looking, bright, fluffy, wavy and easy to handle. It gets all scabs and takes out every particle of dust, dirt and dandruff.

## Social Activities

Miss Myrtle M. Schell  
To Wed Clarence McCarty.

At a party given Tuesday evening by Miss Adelaide McCarty at her home, 774 East College avenue, announcement was made of the approaching marriage of her brother, Mr. Clarence E. McCarty to Miss Myrtle M. Schell. The wedding is to take place June 19. For the occasion the house was decorated in the colors red and white and the guest list included only close friends of the bride-to-be. The announcement was made by means of a large American Beauty rose, which, when open, contained a number of smaller roses. Inside of these roses were tiny hearts bearing the initials of the young people and the date of the marriage.

The bride-to-be is a daughter of Ernest Schell and has always resided in Jacksonville. She is a graduate of the Jacksonville high school with the class of 1913 and since that time has been a teacher in the public schools at Franklin. Mr. McCarty is the son of Mr. and Mrs. A. J. McCarty and has also lived here all his life. He was educated at the high school and for the past six years has been employed as a carpenter at the Jacksonville State hospital. Both young people are members of the Central Christian church.

The hostess was assisted by her sister, Miss Grace McCarty and the evening was spent in playing games and with music. During the time suitable refreshments were served.

Entertains at Dinner  
For Miss Wadsworth.

Mrs. J. T. King gave a 7 o'clock dinner Tuesday evening at the Peacock Inn, in honor of Miss Alice Wadsworth and Dr. Alpha Applebee. The guests were Mrs. J. T. King, Mr. and Mrs. E. E. Crabtree, Mr. and Mrs. Felix Farrell, Mr. and Mrs. F. J. Andrews, Misses Alice and Mary Wadsworth, Mrs. Helen Brown Read, Dr. Alpha Applebee and Marcy Osborne. After the dinner the evening was spent at the King residence.

Annual Open Meeting of Missionary Society.

The annual open meeting of the Woman's Home Missionary society of Grace M. E. church was held at the residence of Rev. and Mrs. J. W. Miller on West State street, Tuesday evening. Although the weather was unfavorable there was a large attendance. The program of the evening consisted of an address by Mrs. C. D. Spencer of Kansas City, wife of the editor of the Central Christian Advocate. Her daughter favored the company with two vocal solos and there was a dialogue by the members of the Queen Esther society.

The evening proved most enjoyable and during the time light refreshments were served. Mrs. Miller was assisted by Mrs. Charles Hopper, Mrs. A. T. Capps, Miss Laura Sheridan, Miss Susie Draper, Miss Mary Martin and Miss Ida Lee.

An election of officers for the ensuing year was held. That of president was not named. The others were: Vice presidents, Mrs. C. E. Williamson and Mrs. F. P. Dawson; Secretary, Mrs. O. F. Martin; Treasurer, Mrs. Charles Hopper.

Country Club Meets  
With Mrs. Rawlings.

Members and guests to the number of thirty were present Tuesday afternoon at the home of Mrs. J. W. Rawlings, near Alexander, for the regular meeting of the Woman's Country club. Mrs. James H. Dobyns was leader, presenting a historical paper of interest on "Philadelphia." Mrs. W. H. Hinrichsen gave her report as delegate to the 20th district federation meeting at Pittsfield. An excellent luncheon was served in rooms decorated to good effect in pink and white. Mrs. A. C. Rice of Jacksonville was among those present from beyond the vicinity.

## FUNERALS

Taylor.

Barry Taylor died Tuesday afternoon at 2:30 o'clock at the family residence seven miles southwest of Jacksonville. He was born in Wroxton, England, April 27, 1842, and came to the United States in 1866. He married Miss Margaret M. McGinnis of this city Sept. 15, 1874. They were the parents of two children, Frances E. and Mary Edith. Besides the daughters and wife, he leaves one sister, Mrs. Frances Cooling and four brothers, Edward, Henry, Reuben, and Samuel, all of England. Two brothers died in infancy. The time of the funeral is to be announced later. Interment will be made in Diamond Grove cemetery.

Greenleaf.

Funeral services for Lawrence A. Greenleaf were held at 10 o'clock Tuesday forenoon at the home of his niece, Mrs. W. B. Young, 1305 Second avenue, and were conducted by Rev. R. O. Post, pastor of the Congregational church in the presence of quite a number of relatives and friends of the deceased. The floral tributes of friendship and sympathy were cared for by Mrs. Grace Greenleaf Young and Miss Martha Greenleaf. The bearers were M. E. Greenleaf, Dr. W. B. Young, Sam O. Barr, Hugh B. Smith, J. A. Ayers and Haller Higgins.

Interment was in Diamond Grove cemetery.

O'Brien.

The funeral of Helen Elizabeth O'Brien, the ten weeks old daughter of Mr. and Mrs. M. H. O'Brien of Dwight, Ill., was held at the Church of Our Savior Tuesday afternoon at 2 o'clock, in charge of Rev. J. W. Crowe. Interment was made in Calvary cemetery. The child is survived by its parents, two brothers, John Paul and Francis, and one sister, Mary Margaret. Mrs. James Wilson of Springfield was among those here to attend the funeral.

## LAST ASSEMBLY HELD AT JACKSONVILLE HIGH SCHOOL

The last assembly of the Jacksonville high school for the current year was held Tuesday morning. Principal Stone made a brief address on "Friendship." The final examinations begin today and will continue throughout the week. The final reports will be given out at 1:30 Tuesday morning when there will be an assembly meeting for that purpose. The last Nautilus will also be distributed at this time.

It has been decided to hold the school luncheon at noon Wednesday, May 26, the same time as field day. A committee from the Social and Athletic associations has been appointed to prepare a program for this day. A effort is being made to have the high school annual "Crimsen" ready for distribution by commencement time.

## TALK ABOUT PAVEMENT.

An informal conference of West State street property owners was held Tuesday night in the Chamber of Commerce rooms to talk about a new pavement on that street from Church street west. ## BELIEVE ITALY WILL ENTER WAR SOON

(Continued From Page One.)

Yser, although the Germans admit a retirement and the French assert that they have inflicted heavy losses on the invader. From all accounts however, it would appear that allies have again incited the Germans to counter-attacks both on the Yser and in the Arras region and that to the north of LaBasse the British are doing the attacking. The Germans in conjunction with the Austrians continue their big efforts in the east. Heavy fighting is in progress along the river San in Galicia where the Russians are attempting to make a stand against their retirement from western Galicia and the Carpathians.

Forced Passage to the San. According to the Austrian account of the fighting the German allies have forced a passage of the San at several points. North of this war zone—in southern Poland—the Russians are vigorously delivering counter-attacks against the Austro-Germans. They also are pursuing their offensive in Bukovina, where it is asserted they have driven the Austrians and Germans back from the Danester to the Pruth and are trying to clear them out of Bukovina.

## FIGHT TO A DRAW.

Boston, May 18.—A twelve round bout between Willie Ritchie, lightweight champion of America and Matty Baldwin of this city, ended in a draw tonight. The champion forced the fighting constantly during the early rounds and Baldwin was at a loss for defense. But after the sixth round the Boston man assumed the aggressive and landed blow after blow on Ritchie.

### TUCKER GETS LIMIT FOR LIQUOR SELLING

Bootlegger Pleaded Guilty Before  
Judge Thomson in the County  
Court.

In the county court Tuesday Jewell Tucker pleaded guilty to the charge of selling liquor in anti-saloon territory and Judge Thomson gave him a fine of \$100 and costs and 30 days in jail, which is the maximum for the first offense. Tucker was arrested by officers Sharp and Moore of the city police force after some investigation had been conducted by Chief of Police Davis. It seems that in the testimony before the grand jury several witnesses testified to purchasing liquor of a colored man with gold teeth and it was on this clue that Chief Davis worked up the case against Tucker. It is said that he has been in the habit of visiting this city occasionally coming here from Missouri for the specific purpose of selling liquor.

### CYCLONE VISITED COUNTY 32 YEARS AGO YESTERDAY

Yesterday was the thirty-second anniversary of the great storm which visited Morgan county Friday evening, May 18, 1883, and the older residents will recall the death and destruction it left in its track. Literberry, Greasy Prairie and Woodlyn station, between Jacksonville and Pisgah, are mentioned as the greatest sufferers, though the storm seemed to make its way eastward with little abatement and the damage in Sangamon county was of no small account.

The origin of the storm seemed to be in Adams county near Camp Point and it grew worse as it progressed. At Literberry more than three-fourths of the buildings were demolished in a minute of time, five were killed and many people were wounded. South of Murrayville life and property were destroyed in wholesale manner and at Woodlyn station the depot was demolished and box cars on the siding were blown to pieces and strewn over the fields.

### BIRTH RECORD.

Born to Mr. and Mrs. Charles Lucht of Nebo, Saturday, May 22, a daughter, Mr. Lucht is a former resident of Jacksonville.

### STATE SHOOT AT PARK BEGINS THIS MORNING

CENTRAL ILLINOIS TRAP SHOOTERS LEAGUE MEMBERS HERE.

Two-day Sessions of Sixth Annual Tournament Draw Many Expert Shots to Jacksonville—Night Shoot This Evening Will Be a Special Feature.

Marksmen are gathering from all parts of central Illinois and expert shots of national reputation are numbered among those who will attend the big state shoot today at Nichols park. This two-day event of the sixth annual tournament, Central Illinois Trap Shooters' League, will begin this forenoon at ten o'clock on the Nichols Park Gun club grounds and all entries are required to be in by noon. Among notable marksmen expected in the city today are Arthur Killam, Bart Lewis, W. R. "Bill" Crosby, A. C. Buckles and J. R. Graham. Mr. Killam is a former winner of the grand American handicap.

Among the clubs sending teams are Springfield, Shelbyville, Alexander, Peoria, Mt. Palaski, Lincoln, Decatur and Bloomington. A squad to represent a club must contain at least five men.

Today's program provides for ten 15-target events, with money divided according to the A. C. Connor system. A special twenty-five target event will be held for those not winning in the main contest. The program Thursday will be the same as today, with the addition of a team shoot which will be held promptly at one o'clock. There will be no handicaps and all contestants will shoot from the 16-yard line.

The grounds have been especially fitted with high-power lamps and the night shoot this evening promises to be one of the best features of the program. White targets will be used, for additional convenience of the shooters. W. T. Craig's record of 93 birds broke out of a 100 in a night shoot last season, shows this branch of the sport to be on a par, with shooting by daylight.

For Jacksonville trap shooters the night shoot has more than ordinary interest as it was here that one of the first after-dark events was held some seven years ago. J. A. Groves and Charles Magill were in charge and this so far as known was the first regular night shoot in the nation. Gun club grounds the country over are being fitted with proper lighting facilities and night shoots are becoming constantly more popular.

### GREEK PLAY POSTPONED ON ACCOUNT INCLEMENT WEATHER

The Greek play, Antigone of Sophocles, which was to have been given Tuesday afternoon on the Woman's college campus was called off on account of rain and will be held Thursday afternoon at 4 o'clock. A goodly number had gathered on the campus and the cast of characters had made up and were just in the act of emerging from the building when the rain came. As has formerly been announced an orchestra under the direction of Prof. H. V. Stearns will furnish the music and there will also be a chorus composed of students from the Woman's college. The following is the cast of characters:

Priest of Dionysus—Floyd Davis.  
Antigone, daughter of Oedipus and niece of Creon—Miss Rebecca Scheibel.  
Ismene, sister of Antigone—Miss Beulah Ennis.  
Creon, king of Thebes—Henry Caldwell.  
Haemon, son of Creon, betrothed to Antigone—Paul Watkins.  
Tiresias, the blind Prophet—Floyd Davis.  
Eurydice, wife of Creon—Miss Esther Cohen.  
Watchmen—Roy Newberry, John Furry, Lloyd Cully.  
Messengers—Royal Davis, John Oapps Irwin.

Attendants to the Priest—McKendree Blair, John Strawn.  
Attendants to Eurydice—Miss Gladys Galaway, Miss Miriam Akers.  
Boy, attending Tiresias—Master Lindley Williamson.  
Attendants to Creon—Royal Davis, Albin Molohon, Uriel Gouveia, Wilbur Rodgers, Lee Stein, Floyd Williamson, Joel Crouch, Wilson Akers.  
House attendants—John Furry, Lloyd Cully, McKendree Blair, John Strawn.

### EPWORTH LEAGUE ELECTS.

At the regular meeting of the Epworth League of Centenary M. E. church recently, an election of officers for the ensuing year was held. The officers elected, who will be installed at the regular league service next Sunday, follow:

First vice president—Miss Nina Fee.  
Second vice president—George James.  
Third vice president—Miss Bessie Mather.  
Fourth vice president—Fred E. Darr.  
Secretary—Flossie Kellogg.  
Treasurer—Laurence Abbott.  
Pianist—Miss Myrtle Sheppard.  
Assistant pianist—Miss Olive Engel.

Henry Devine expected to leave today for northern points of Illinois where he will work for a concrete gang on the Burlington railroad.

## ENGLAND'S FIRST SEA LORD RESIGNS POST

IS PROBABLY FIRST STEP TOWARD  
RE-ORGANIZATION OF GOVERNMENT

Admiral Fisher Resigns Because Inability to Work With Churchill—Rupture Occasions No Surprise—Complete Changes in Government Certain.

London, May 18—(11:17 p. m.)—The resignation of the veteran sailor Lord Fisher from his post of First Sea Lord of the Admiralty because, he and his nominal civilian superior, Winston Spencer Churchill, first lord of the admiralty, have been unable to work together, is probably the first step toward a sweeping re-organization of the British government.

### Complete Change Certain.

A coalition cabinet, composed of the strongest men of both political parties is believed to be the probable solution of the government's difficulties. There is no question of a complete change of the government but the retirement of several members of the liberal cabinet to make way for the strongest men of the conservative party is confidently expected. Premier Asquith will remain at the head of the government in any event with Lord Kitchener and Sir Edward Grey, respectively the war and foreign ministers in indisputed possession of their present posts, while David Lloyd-George, the chancellor of the exchequer, and Mr. Churchill, probably will take new positions.

Of the conservatives Andrew Bonar Law, the opposition leader in the house of commons, former Premier Balfour, Lord Derby and Austen Chamberlain almost certainly would enter the cabinet and either Lord Curzon, Lord Milner or the Earl of Selborne, from the conservative leaders in the house of lords.

The labor party would probably be represented by the Right Hon. Arthur Henderson, its chairman and there is talk of both of the Irish leaders, John Redmond, and Sir Edward Carson, becoming members.

### Criticism Brings Discontent.

For nine months the Liberal cabinet has conducted the war government with loyal support from the leaders of the conservative party in parliament. Since the month of May brought the most critical days of the great struggle upon them the British people of all parties have become more and more convinced that the management of their destinies by one political party cannot bring the full strength of the nation into the struggle. Consequently a re-organization of the forces, it is thought would meet a growing popular demand. The conservative newspapers have not felt the same obligation to respect the party truce that the parliamentary leaders have shown and their criticisms of government policies and of certain cabinet members have stirred up an under-current of discontent throughout the country.

### The Rupture between Admiral Fisher and Mr. Churchill was no surprise.

One is a stiff-necked old man who is popularly credited with both the determination and the ability to command the navy as masterfully as Kitchener commands the army, while the other is a strenuous and ambitious young man who is equally resolved to enforce his own views and naval policy.
